

Examples of Needs and Sharing

Below are examples of a Non-Emergent and an Emergency medical injury that illustrate how Sedera Members have their costs shared by the Sedera Medical Cost Sharing Community.

Non-Emergent Injury

David twisted his knee and suspected a torn ACL injury. He opened a Needs Case and, with help from a Sedera Member Services Advisor, chose a cash pay friendly orthopedic doctor. He had an MRI, and surgery was recommended.

David utilized Sedera's Expert Second Opinion service to confirm that surgery was his best option. He underwent arthroscopy surgery, received a knee brace and crutches, and had a postoperative visit. His follow up care included physical therapy sessions.

Did You Know?

In the event that a third-party is liable for your medical expenses, all eligible medical bills are to be processed by the obligated party first. Your Initial Unshareable Amount (IUA) will be reduced, and possibly waived, by the amount an obligated third-party pays toward your bills. After all payments have been applied, any eligible medical expenses not covered by the third-party will be shared with the Sedera Community.
